Session Information

Outfit Changes

Make sure you dress head to toe. Some of your portrait session will include full length Portraits.

Colors:

Solid colors are best. Small patterns in your clothes will also work well. Make sure that if you do have a print that it doesn't detract from you. Now if weight is an issue, stay away from sleeveless, and lighter colors that may accent your least favorite areas. Dark colors tend to have a slimming effect.

For clothing inspiration go to Pinterest, take a look at our Pins: "Olive Photography".

Your Hair:

Girls: Yes, those roots will show! Make sure you get a color touch up if it is needed before your session.

Guys: Make Sure you get a haircut at least a week or so prior.

Outfit Changes:

Guys 2-3 is normal, and girls 2-5 is pretty common.
